

Vijay Mane started his first business at the age of 16 and sold the same after 3 years and continued to pursue management education. In the year 2000, after completing his post-graduation in business management from SDM-IMD, Mysore, he joined as equity analyst for a leading investment management company. During next 4 years, he handled research of over 400+ companies, advised clients on equity investments and managed their portfolios. In the year 2004, he returned to Hubli to join his family business. He built 2 businesses from early stages and sold both after 4 years to bigger companies. He took to teaching for about 2 years before returning back to entrepreneurship once again. In 2010, he started a software technology company with a vision to build powerful solutions in the photography domain. In the last 7 years, his company has developed 3 spectacular products. Since last one year, his company is evolving from a technology company to business enablers by integrating all stakeholders businesses. You can visit www.aftershoot.in and www.tech4photolabs.com to know more about his business. Vijay is an active member of TiE and Round Table India. He even conducts development programmes for start-ups and is mentoring several start-ups.
