

SDMIMD Mysuru: Students take active part in Socially Relevant Projects

The students of the Shri Dharmasthala Manjunatheshwara Institute for Management Development (SDMIMD), Mysuru, take active part

in the socially relevant projects by extending their learnings to the underprivileged and 'out-of-system' citizens of our country and bringing in a ray of hope for them.

Total 182 students visited 23 organizations, which includes NGOs, Govt offices, schools in rural areas, charitable trusts, orphanages and old age homes in Karnataka and Tamilnadu to ensure that, they are also included in the system by providing access to education, health, safety and security. In addition, the students assist these organizations in managerial functions and get an exposure of how the social problems are being addressed.
