

Economics meet begins today

Experts to discuss ways of bringing sustainable growth

SPECIAL CORRESPONDENT
MYSURU

Shri Dharmasthala Manjunatheshwara Institute for Management Development (SDMIMD) has organised the 4th International Economics Conference on the theme 'Economic Growth and Sustainable Development: Emerging Trends' here on November 23 and 24.

The major and immediate challenge of the current century is to generate inclusive, balanced and sustainable growth.

In this backdrop, the conference has the objective to provide a stimulating platform for academicians and practitioners to reflect, deliberate, and suggest measures that are needed both

The two-day event is being hosted by Shri Dharmasthala Manjunatheshwara Institute for Management Development

at macro and micro level to elevate India and other backward economies to higher and sustained growth trajectory, a press release said.
