

Engage to Educate: Enhancing Student Attention through Active and Innovative Classroom Practices

Dates :

December 15th & 16th,
2025

Venue :

MDP Hall, SDMIMD

Program Overview

The **two-day Faculty Development Programme (FDP)**, titled “Engage to Educate: Enhancing Student Attention through Active and Innovative Classroom Practices”, is designed to empower teachers with contemporary and learner-centered pedagogical strategies. The programme will be facilitated by **four SDMIMD faculty resource persons, collectively bringing extensive experience in both academia and industry**. It offers a dynamic blend of classroom and outbound learning activities, including role plays, storytelling, activities, experiential and case-based learning, simulations, live project assignments, AI-enabled teaching demonstrations, field visits for contextual knowledge building, and analyses of contemporary business and technical ecosystem scenarios.

Program Overview

- 1.To empower faculty with innovative, learner-centric pedagogical tools, including experiential methods, digital technologies, and multidisciplinary strategies, aligned with the NEP 2020 vision of creating engaging, inquiry-driven education.
- 2.To enhance student attention and classroom participation by equipping faculty to integrate interactive techniques such as simulations, storytelling, games, case-based approaches, and field-based projects into teaching.
- 3.To foster a culture of creativity, critical thinking, and application-oriented learning that bridges academic knowledge with real-world business and technical scenarios, thereby preparing students to meet contemporary professional challenges with confidence.
