R. Parasuraman Director, SDM-IMD; R.C. Jagadesh, Director - Global Competence Centre - Cement Industry, Kluber Lubrication and Dr. Srilakshminarayana, Conference Chair, releasing the conference proceedings**

Mysuru, Jan.9-Shri Dharmasthala Manjunatheshwara Institute for Management Development (SDM-IMD), Mysuru, had organised a National Conference on 'Operations Management, Analytics and Statistical Methods' on Jan. 6.

R. C. Jagadesh, Director - Global Competence Centre - Cement Industry, Kluber Lubrication India Private Limited, in his keynote address spoke on how one can build a qualitative environment around oneself by integrating people and processes. He also emphasised on how one should integrate with the customers and their needs to bring in quality around.

Prof. Vasudeva, UGC Emeritus Professor, Department of Studies in Statistics, University of Mysore, stressed on why one should feel the data before using the advanced statistical methods. He gave examples of stock market crash due to wrong usage of statistical methods.

Prof. Julian Gaspar, Clinical Professor of Finance & Executive Director Centre for International Business Studies, Mays Business School Texas, A&M University, spoke on integrating different cultures in taking appropriate decisions. Dr. N. R. Parasuraman, Director, SDM-IMD welcomed Dr. Srilakshminarayana Conference Chair, briefed on the importance of the Meet.

Dr. Srilakshminarayana, Conference Chair, briefed on the importance of the Meet.
